Dear Hila,

I have learnt to know your project “Graduate Connect” as an innovative start-up in the HR field. Its objective is to connect graduates in the fields of science and engineering from top Israeli Universities to leading German companies.

The project, founded and led by you, is operating in Tel-Aviv.

I had the pleasure to meet you in my office and on another occasion in Tel-Aviv and you introduced me the goals and activities of the business. I am convinced that you are a target-orientated and capable personality. I am sure that you and “Graduate Connect” will make an effort to bring benefits to the companies you are working for. I think that you can bring academics with high potential to companies.

I wish you a lot of success for your project.

Best regards,

Anke Popper

Head of the Economic Department
